

QUEEN'S SILVER JUBILEE

On the occasion of the celebration of the Queen's Silver Jubilee, the Directors have decided to make a presentation to each member of the staff of a silver ingot.

These ingots are made of the highest purity of silver, specially struck for Scandinavian Bank Limited, and are serially numbered. The issue is one of a limited number of 350. As no further copies of these particular ingots will be made, they may, in the future, have a value as a collector's item.

The serial number of your ingot, which accompanies this memorandum is 288
