

AE TRI-FECTA

We had a feeling that 2018 would be off to a great start, but we were not anticipating so much happening in the first few weeks!

January 20, 2018

FIRST, we wanted to share with you some exciting news we received just this week from **BASF**, successor to Engelhard Industries. After years of putting our website in front of them for comment, critique and acknowledgement, AllEngelhard.com has finally received formal endorsement from **BASF** – link [here](#). This is the proverbial feather in our cap that now somehow makes it all seem more worthwhile!

SECOND, we hereby launch the [DREAM PAGE](#) today, a collection of eye candy bullion photos from several collectors. This will be an ongoing and developing page inviting the participation of collectors around the globe. Enjoy!

THIRD, we hereby launch the [W. H. Foster, Inc.](#) page in our OTHER REFINERS section. The page is currently in progress and presents pressed rounds, tokens and bars. We will be adding the old pour ingots that we all love next week, so be sure to check back as some of them are simply amazing. This will be very exciting to many collectors, and our thanks go out to our collector friends who have helped to make this happen!

Cheers to 2018!!!

AE
