

WE ARE EXCITED TO ADD

BUNKER HILL COMPANY

TO OUR OTHER REFINERS SECTION!

By AGWire™
May 19, 2018

BUNKER HILL COMPANY is another long-time favorite refiner of ours, producing a very limited number of odd-weight bars over its tenure. Word in the inner circles says that these bars were mostly produced as company gifts and awards, with only a limited handful offered for public sale. Please take a moment to visit the new [BUNKER HILL COMPANY](#) Definitive Page, which displays an array of photos and a list of known ingots. This page differs from our other refiners due to the very unique production protocol.

If you own any of these beautiful ingots and have any additional information to supplement this page, we would be grateful for your contribution!

Happy Stacking,

AE
