

# REMEMBERING RODNEY LANE

## OF SPRING VALLEY BULLION

Our world at All Engelhard was shattered over the weekend by the news that our long-time friend and bullion broker **Rodney Lane** had passed away at the young age of 48 due to complications from Covid19. Rodney was a go-to source for collectable bullion in Southern California, always coming up with rare and collectable pieces, and his dealings were always fair, honest and fun. He was a true gem to work with, and quickly made a name for himself in our collector community.

Rodney is survived by his high school sweetheart and wife Wendi, together 32 years, and 25 year old daughter Mariah. Their son Rodney Jr. died tragically in 2018. Wendi shares these words of her husband's loss with our community:

*"He really got into gold and silver dealings around 2015 and opened up our little business at that time. I know he really loved this HOBBY and found great joy in the stacking world."*

*He considered all of you his friends and loved to make deals  
His other interests and hobbies were Baseball and fishing  
love, Wendi lane his devoted wife...he was the love of my life, my rock.*

*WE love God and family! You guys are now part of my extended family!!!* 

Please send your prayers and any 'Rodney stories' to Wendi as she heals from this tremendous loss – wendilane@hotmail.com. This is yet another reminder that **every day is a gift**. Rodney will be greatly missed in our community, but we will continue to be reminded of his beautiful spirit and passion for life.

In sympathy,

AE
